

MARTIN LEFÈVRE

DEVELOPER - INTERN

ABOUT

Computer science student for +2 years. Passionate about UNIX environments, DevOps, web development and algorithms. Bilingual French - English, learning Spanish.

EDUCATION

Campus 19, Brussels Sep 2021 – Present

Computer school where I acquired most of my skills. I'm looking for an internship as part of my studies at Campus 19.

PROFESSIONAL EXPERIENCE

Groupe Bruxelles Lambert, Brussels Sep 2022 – Feb 2023
Internship - Software Developer

Centralization of company security data. Practical application of Python, Express.js, Node.js. Use of APIs: Microsoft Graph API, Bloomberg HAPI, Bloomberg B-Pipe, etc.

PROJECTS

Minishell <https://mlefevre.xyz/projects#minishell>

Group project. Creation of a programming language for CLI (simplified Bash) in C.

Camagru <https://camagru.mlefevre.xyz/>

Individual project. Creation of a social network in PHP. Practical application of SQL and cybersecurity concepts.

N-Puzzle <https://n-puzzle.mlefevre.xyz/>

Group project. Creation of an A* algorithm solving the Taquin game in C++20, my language of choice.

I self-host my databases and applications on my k0s cluster. I can automate my deployments with ArgoCD and Gitlab CI/CD.
